PROFESSIONAL SUMMARY

I'm a video editor and AI video specialist with 2 years of experience working with Sphere Rocket and Cyberbacker. I have experience creating engaging video content, using AI-powered tools, and turning ideas into polished, high-quality videos. I'm always willing to learn new tools and techniques, adapt to different styles, and contribute creative ideas that help businesses grow and connect with their audience.

SKILLS

- Video Editing: Short-Form & Long-Form Video Editing
- AI Video Creation & AI-Powered Editing Tools
- Video Optimization for Social Media
- Attention to Detail & Creative Problem Solving
- Team Collaboration & Time Management

EXPERIENCE

Cyber backer

2024-2025

During my time at Cyber backer, I worked as a Video Editor and AI Video Specialist, where I was assigned to a client through the agency. My main responsibility was creating and editing video content using AI-powered tools, primarily for a client in the healthcare industry. I worked on transforming provided ideas and materials into engaging and professional videos while ensuring the content matched the client's style and requirements. This experience helped me strengthen my video editing, creativity, attention to detail, and ability to work independently while meeting deadlines. I gained valuable experience working with AI video tools and adapting content for a professional audience while balancing my work with my studies during my third year of college.

Sphere Rocket

2025 - 2026

During my time at Sphere Rocket, I worked as an AI Video Editor, where I was assigned to a client through the agency. My main responsibility was creating and editing AI-powered video content focused on pet supplements and pet accessories. I transformed product ideas and provided materials into engaging short-form videos designed to showcase products and capture the target audience's attention. I also used AI video generation and editing tools to improve the visual quality and efficiency of the content creation process. This experience strengthened my creativity, video editing skills, attention to detail, and ability to follow client requirements while managing deadlines alongside my fourth-year college studies.

EDUCATION

Bachelor of Science in Information Technology

2022 - 2026

Mindoro State University — Calapan Campus
